JOHN P. MAULTSBY  
Madison, Florida

LOUIS SHIVER  
Mayo, Florida

JERRY A. SCARBOROUGH  
Executive Director  
Live Oak, Florida

Subject: FNGLA Certified Horticulture Professional Manual

Dear Mr. Bolusky:

Thank you for the opportunity to review the above-referenced manual. After review, it is obvious that many people and organizations including Florida Department of Environmental Protection, Florida Department of Agriculture and Consumer Services, University of Florida and your industry have spent a lot of time and money on the manual. The manual is well organized and prepared for professionals in the industry, as well as others interested in becoming knowledgeable in Florida horticulture.

This type of educational material is essential in protecting our valuable water supplies threatened by non-point source pollution. A person using this manual and becoming certified for the Green Industries Best Management Practices training certificate is good for our environment as well as Florida's precious water supplies.

The Suwannee River Water Management District is pleased to endorse the FNGLA Certified Horticulture Professional Manual.

If I can assist you in any other way, please call me at 386.362.1001, or toll free at 800.226.1066.

Sincerely,

A handwritten signature in cursive script that reads "David Still".

David Still  
Deputy Executive Director
